# Champion Interview & Feedback

## Education

**Revisit Strategy #33** – Improve data sharing. **Status:** Keep and expand

### Issues:

- **Learning loss** in education. Students not socially and emotionally engaged. Modality of learning has changed. Emotional interaction has taken a toll due to COVID.
- **Need for resources for social emotional health needs** and challenges.
- Concern for the students returning and integrating to a new grade level and/or school

# Champion Interview & Feedback

## Economy

**Recommended:** COVID-19-Specific, Commercial rental assistance to protect commercial property owners. Working with both state senators on this.

### Issues:

- **Quality attainable rental housing** is disappearing – workforce housing
- **Lack of childcare** – especially hitting working women and primary caregivers in general
- **Funding for Career and Technical Education (CTE)** – workforce needs to pivot as jobs will morph – moving towards advanced technology, retrain people into new jobs. Work at the education level to increase access to the CTE programs that are vital – there is currently not enough room in the programs to take students.
- **Internet access** needs to become a utility, and accessible to all. Provide to vulnerable populations at no cost. Have support from county schools.

# Champion Interview & Feedback

## Safety

**Recommended:** Adding equity as a GOAL/OBJECTIVE and we monitor progress towards legislation

- **Equity needs to be more integrated** into our plans for safety.
- **Include the partnership with FBO and how cultural issues impact COVID** and treatment.
- **Address distrust of the medical professions** as it relates to culture.
- Need to educate community on law enforcement's role.

## Access to Health & Wellness

### Issues:

- Residents **navigating the health system** to find services and information and use of technology.
- **Health Literacy** – understanding the complexity of the COVID-19 virus and illness.
- **Stress, anxiety and distrust,** – knowing how to cope and manage, mental stress.
- **Need to increase community health workers and trainings-** and highlight need for increased cultural competence.
- Need CHW trainings to establish **cultural competence.**
